

APRIL IS SEXUAL ASSAULT AWARENESS MONTH

©National Clearinghouse on Abuse in Later Life (NCALL), 2015.

Sexual violence against people in later life involves a broad range of contact and non-contact sexual offenses perpetrated against people age 60 and beyond. Oftentimes, older victims have experienced multiple victimizations throughout their lives. Historically, older people have not been considered potential or actual targets of sexual assault and, as a result, have been under-identified and underserved as victims.*
